

Curriculum vitae: **Elena Gaburro**

Office Address	University of Verona, Department of Computer Science Strada le Grazie 15 (Ca Vignal 2), 37134, Verona, Italy
Tel.	+39 338 3349389
ORCID	0000-0003-0743-6926
Mail	elena.gaburro@univr.it
Web page	https://www.elenagaburro.it
Nationality	Italian
Date of birth	18/06/1990
Codice Fiscale	GBRLNE90H58C312G

Actual position

From 04/2024	Associate Professor, University of Verona, Italy
2024-2029	Principal investigator of the ERC Starting Grant: ALcHyMiA
<u>Collaborators</u>	<u>Italy</u> : Prof. M. Dumbser, Prof. I. Peshkov, Dr. O. Zanotti (Trento), Prof. W. Boscheri (Ferrara-Chambery), Dr. M. Bonafini (Verona) & Dr. D. Torlo (SISSA) <u>Germany</u> : Prof. C. Klingenberg (Würzburg), Prof. V. Springel & Dr. F. Fambri (Munich), Dr. S. Chiocchetti (Stuttgart), F. Thein (Magdeburg), P. Öffner (Mainz) <u>Spain</u> : Prof. M. Castro & Prof. C. Parés (Málaga), Dr. S. Busto (Vigo) <u>France</u> : M. Ricchiuto & R. Loubère (Bordeaux), B. Després & S. Del Pino (Paris)

Keywords - Scientific interests

- Numerical analysis, nonlinear hyperbolic partial differential equations, scientific computing.
- Arbitrary high order in space and time: ADER Finite Volume & Discontinuous Galerkin methods.
- Moving nonconforming unstructured meshes, direct Arbitrary-Lagrangian-Eulerian (ALE), sliding lines, topology changing, Voronoi meshes, Well Balancing & Structure Preserving schemes.
- Shallow water, Euler, Baer-Nunziato, Multiphase, Magnetohydrodynamics, General Relativity.
- Fortran MPI, OpenMP and GPU-CUDA parallel computing.

Education

11/2014– 10/2017	PhD in Mathematics, University of Trento and Verona, Italy
Thesis 19/06/2018	Well balanced Arbitrary-Lagrangian-Eulerian Finite Volume schemes on moving nonconforming meshes for non-conservative hyperbolic systems.
Supervisor	Prof. Ing. Michael Dumbser, University of Trento, Italy
Members of the committee	Prof. Christian Klingenberg, University of Würzburg, Germany Prof. Manuel J. Castro, University of Málaga, Spain Prof. Bruno Després, LJLL, UPMC, Paris, France
Final mark	Doctor Europaeus cum Laude
09/2012– 10/2014	Master's Degree in Mathematics, University of Verona, Department of Computer Science, Italy
Thesis	Domain decomposition methods and high order edge finite elements in applied computational electromagnetism.
Supervisors	Dr. Marco Caliarì, University of Verona, Italy Prof. Victorita Dolean, University of Strathclyde - Glasgow, United Kingdom Prof. Francesca Rapetti, Université de Nice - Sophia Antipolis, France
Final mark	110/110 cum Laude

08/09/2009– 23/07/2012	Bachelor's degree in Applied Mathematics, University of Verona, Department of Computer Science, Italy
Thesis	Minimal surfaces: main properties and representation formulas.
Supervisor	Prof. Sisto Baldo, University of Verona, Italy
Final mark	110/110 cum Laude
09/2004– 07/2009	High School Diploma 'Liceo Scientifico PNI', Istituto F. Gonzaga, Castiglione delle Stiviere Mantova, Italy
Thesis	Il principio di indeterminazione.
Final mark	100/100 cum Laude
Award	Premio Confindustria al merito

Professional experience in Italy

12/2017– 11/2020	Postdoctoral researcher in Numerical Analysis, University of Trento, Italy (Under the ERC-StG STiMulUs no. 278267)
Project	High order Arbitrary Lagrangian-Eulerian (ALE) and Well Balanced (WB) schemes for the numerical simulations of complex nonlinear hyperbolic equations.
Supervisor	Prof.-Ing. Dr. Michael Dumbser

Professional experience abroad

12/2020–04/2024	<u>Researcher with a permanent faculty position (ISFP)</u> &
06/2021–05/2023	<u>Principal investigator of the MSCA-IF</u> SuPerMan project (EU Horizon 2020), Inria center at the University of Bordeaux, France
Project	Structure Preserving schemes for Conservation Laws on dynamic Space Time Manifolds.
Notes	Staff recruited and supervised: M.G. Carlino (postdoc).
01/2020	Invited Researcher, University of Würzburg, Germany
Project	New Agglomerated Finite Elements basis on Voronoi meshes.
Collaborators	C. Klingenberg, V. Springel, M. Dumbser, W. Boscheri, R. Pakmor, S. Chiocchetti.
10/2019– 11/2019	Invited Researcher, University of Málaga, Spain
Project	Well balancing for hyperbolic equations in covariant form
Collaborators	M.J. Castro, C. Parés.
04–05/2018 & 01/2019	Invited Researcher, University of Würzburg, Germany
Project	Discontinuous Galerkin methods for a moving mesh code.
Collaborators	C. Klingenberg, V. Springel, M. Dumbser, W. Boscheri, R. Pakmor, S. Chiocchetti.
06/2017– 11/2017	<u>Marie Curie MSCA ITN-ESR Fellowship,</u> University of Málaga, Spain
Note	PhD contract was frozen during the MSCA
Project	Application of modern well balanced techniques to nonconservative hyperbolic PDEs for geophysical flow. (Under the project ModCompShock , Horizon 2020, n.642768).
Supervisors	M. Castro, C. Parés

01/2017– 04/2017	Invited Researcher, Laboratoire LJLL, UPMC, Paris, France
Project	Angular momentum preserving schemes.
Collaborators	B. Després, S. Del Pino
04/2016– 05/2016	Invited Researcher, University of Malaga, Spain
Project	High order well balanced ALE schemes for hyperbolic PDEs on nonconforming meshes.
Supervisors	M. Castro, C. Parés
04/2014– 07/2014	Internship, Laboratoire J.A Dieudonné, Université de Nice - Sophia Antipolis, Nice, France University of Strathclyde - Glasgow, United Kingdom
Project	Developments in Matlab and FreeFem++ of high-order approximation methods for time-harmonic Maxwell's equations. Edge elements and domain decomposition strategies.
Supervisors	V. Dolean, F. Rapetti
08/2013– 01/2014	Erasmus: master 2 in Mathematics for Modelling, UPMC, Paris VI and CMAP - École Polytechnique, Paris, France
Speciality	Numerical Analysis for Partial Differential Equations.
Courses with	F. Hecht, F. Coquel, F. Lagoutière, F.-X. Roux, Y. Maday

Teaching

Invited lecturer in master & PhD courses abroad (37h):

10/2023	University of Verona, Italy (12 hours)
01/2020	University of Würzburg, Germany (15 hours)
10/2019	University of Malaga, Spain (10 hours)

PhD: 54h **Master:** 142h **Bachelor:** 252h **Tutoring:** 150h **Lyceum:** 100h

AA 2025-2026	Professor of <i>Numerical methods for science and engineering: hyperbolic PDEs and parallel computing</i> (6 CFU)
Verona	Master's degree in Mathematics (course holder, theory and laboratory, 52 hours)
AA 2025-2026	Professor of <i>Programming languages for scientific computing</i> (2 CFU)
Verona	Bachelor's degree in Applied Mathematics (course holder, theory and laboratory, 16 hours)
AA 2025-2026	Professor of <i>Calcolo Numerico 2</i> (6 CFU)
Verona	Bachelor's degree in Applied Mathematics (course holder, theory and laboratory, 52 hours)
AA 2024-2025	Professor of <i>Data fitting and reconstruction</i> (6 CFU)
Verona	Master's degree in Mathematics (course holder, theory and laboratory, 52 hours)
AA 2024-2025	Professor of <i>Programming languages for scientific computing</i> (2 CFU)
Verona	Bachelor's degree in Applied Mathematics (course holder, theory and laboratory, 16 hours)
AA 2024-2025	Professor of <i>Calcolo Numerico 2</i> (6 CFU)
Verona	Bachelor's degree in Applied Mathematics (course holder, theory and laboratory, 52 hours)
AA 2023-2024	Professor of <i>Numerical methods for mathematical finance</i> (6 CFU)
Verona	Master's degree in Applied Mathematics (course holder, seminar course)
02/2023	Professor of advanced numerical methods for the sol. of hyperbolic equations
Bordeaux	Ecole Doctorale de Mathématiques et Informatique (EDMI) (PhD, 12 hours)
02/2022	Professor of solution of hyp. equations & elements of parallel programming
Bordeaux	Ecole Doctorale de Mathématiques et Informatique (EDMI) (PhD, 12 hours)

03/2021 Bordeaux	Professor of advanced numerical methods for the sol. of hyperbolic equations Ecole Doctorale de Mathématiques et Informatique (EDMI) (PhD, 12 hours)
02/2020 Trento	Professor for the Winter School NUMHYP 2020 (PhD and PostDoc level) Short Course on Advanced Numerical Methods for Hyperbolic Equations (18 hours)
09/2018 12/2018	Adjoint Professor of Numerical Methods for the Environment, University of Trento, Engineering Dep., Italy (Master, 30 hours)
10/2014– 05/2017	Adjoint Professor of Calcolo Numerico con Laboratorio, Department of Computer Science, University of Verona, Italy (Bachelor, 3 years, 117 hours)
10/2014– 05/2017	Tutor of Numerical Analysis, Faculty of Mathematics, University of Verona, Italy (3 years, 150 hours)
11/2011– 03/2012	Internship as educator, AC Chievo Verona, Verona, Italy (25 hours)
06/2008– 07/2008	Tutor activity, Istituto Statale d'Istruzione Superiore F. Gonzaga, Castiglione d\S, Italy (75 hours)

Remark: The low teaching activity in the period **2021-2023** is due to the **incompatibility between teaching** at the University of Bordeaux and my **Marie-Curie Individual Fellowship European Grant** (with Inria as assignee institution). Indeed, for the duration of the grant, I cannot receive any payment from entities different from Inria, and instead the teaching activities must be carried out at the University of Bordeaux. I managed to get a derogation only to be able to teach in a doctoral course per year.

Research funds obtained as PI

2023-2029 Project	ERC Starting Grant: ALcHyMiA, Europe (1.500.000€) ALcHyMiA: <i>Advanced structure preserving Lagrangian schemes for novel first order hyperbolic models: towards general relativistic astrophysics</i>
2023 Project	ANR Individual Project JCJC: ImPrEVu, France (240.600€) ImPrEVu: <i>Innovative Structure Preserving schemes on moving Voronoi meshes for the solution of Hyperbolic Equations</i>
2021	Marie Skłodowska-Curie Actions, MSCA-IF: SuPerMan , Europe (184.700€)
2020	Deutsche Forschungsgemeinschaft Fellowship, Germany (294.500€ , frozen)
2019	UniTN Starting Grant 2019, Italy (14.000€)
2018	Award 'Giovani ricercatori' GNCS, INDAM, Italy (1.200€)

Career & Awards

09/2022	National Scientific Habilitation for Associate Professor, sector MATH-05/A, Italy
02/2019	French Qualification for the function of University Teacher and Researcher, France
04/2024	Direct call as Associate Professor , University of Verona, Italy
12/2021	Rank 2 , RTD-B, Politecnico di Milano, Italy
07/2020	Winner , permanent researcher position, INRIA Bordeaux (France)
06/2020	Rank 1 (winner) , Maître de conférence, Université de Compiègne (UTC) (France)

07/2024	Peter Lax Award attributed by the Scientific Committee of the HYP Intern. Conference
03/2022	Finalist of the ERCIM Cor Baayen Young Researcher Award , <i>European Award for promising young researcher in applied mathematics</i>
02/2020	Seal of Excellence: MSCA-IF High Quality Project , awarded by European Commission
03/2019	Finalist of the ECCOMAS PhD Award 2018 , <i>Best PhD thesis on comp. methods in applied sciences and engineering in Europe</i>
03/2019	GIMC-AIMETA 2018 Award <i>Best PhD thesis in Computational Fluid Mechanics in Italy</i>
03/2019	Seal of Excellence: MSCA-IF High Quality Project , awarded by European Commission
07/2009	Award ‘Confindustria al merito’ , Italy (700€)

Organization of scientific meetings

- **Chair** of the **organizing committee** of [NumHyp 2027](#), June 2027, Verona, Italy.
- **Chair** of the **organizing committee** of [SunHype 2026](#), June 2026, Chania, Crete, Greece.
Participants: **40**. Conference budget: **20.000€**.
- **Chair** of the **organizing committee** of [HONOM 2024](#), 8–13 September 2024, Crete, Greece.
Participants: **83**. Conference budget: **50.000€**.
- **Co-chair** of the **organizing committee** of the **international conference MultiMat 2022**, 10th Int. Conf. on Numerical Methods for Multi-Material Fluid Flow, 22–26 August 2022, Zurich, Switzerland.
Participants: **110**. Conference budget: **60.000€**.
- **Member** of the **organizing committee** for the **regional workshop Journées Calcul & Simulation en Nouvelle-Aquitaine**, 6–7 December 2021, Arcachon, France, with **45 participants**.
Conference budget: **10.000€**.
- **Organization and teaching (18 hours on 36)** for the **Winter School NUMHYP 2020**, Short Course on Advanced Numerical Methods for Hyperbolic Equations, level **PhD** et **PostDoc**, 10–14 February 2020, Trento, Italy, with **35 participants**. Inscription fee collected: **10.000€**.
- **Member** of the **organizing committee** for the **international conference MultiMat 2019**, 9th Int. Conf. on Numerical Methods for Multi-Material Fluid Flow, 9–13 September 2019, Trento, Italy, with **110 participants**. Conference budget: **60.000€**.

Member of Scientific Committees

- [NumHyp 2027](#): 10th International Conference on Numerical methods for hyperbolic equations, 20–25 June 2027, Verona, Italy.
- [HONOM](#) (from August 2026:): International Conference on High-Order NOnlinear numerical Methods for evolutionary PDEs: theory and applications, held biennially since 2005.
- [MultiMat 2026](#): 12th International Conference on Numerical Methods for Multi-Material Fluid Flow, 7–11 September 2026, Biarritz, France.
- [CEDYA 2024](#): it includes the 18th Spanish congress of differential equations and applications & the 17th Spanish congress of Applied Mathematics, 24–28 June 2024, Bilbao, Spain.
- [MultiMat 2024](#): 11th International Conference on Numerical Methods for Multi-Material Fluid Flow, 26–30 August 2024, Colorado, USA.
- [MultiMat 2022](#): 10th International Conference on Numerical Methods for Multi-Material Fluid Flow, 22–26 August 2022, Zurich, Switzerland.

Editorial work & Commission of trust

From 2025	Associate Editor for <i>Computer & Fluids</i> , Elsevier journal
2023-2025	Guest Editor for the HONOM 2024 Special Issue on <i>Computer & Fluids</i> , Elsevier journal
From 2022	Associate Editor for <i>Applied Mathematics and Computation</i> , Elsevier journal
2019-2021	Guest Editor for MultiMat 2022 Special Issue on <i>Computer & Fluids</i> , Elsevier journal
From 2021	Reviewer for the French Research Agency (ANR)
From 2020	Reviewer for the Israel Science foundation (ISF)
From 2018	Reviewer for a total of 9 international peer-reviewed ISI journals: <i>Journal of Computational Physics</i> , <i>Computer and Fluids</i> , <i>Journal of Scientific Computing</i> , <i>International Journal for Numerical Methods in Fluids</i> , <i>Applied Mathematics and Computation</i> , <i>Journal of Computational and Applied Mathematics</i> , <i>SIAM Journal on Scientific Computing</i> , <i>Communications on Applied Mathematics and Computation</i> , <i>Numerical Mathematics</i> (2-3 reviews per month)

Institutional responsibilities

From 2025	Member of the PhD executive committee , PhD in Mathematics, Verona-Trento, Italy
From 2025	Member of the AQ committee , Master in Mathematics, Verona, Italy
2024	Member of the PhD selection commission , Dept. of Computer Science, Verona, Italy
2024	Member of the PhD committee of C. Brutto (Trento, Italy)
2021-2022	Member of the PhD committee of E. Pigmentel & E. Guerrero (Malaga, Spain), and A. Haidar (Montpellier, France)
2020	Co-organizer of the blended teaching activities at the University of Trento, Italy

Publications

All preprints are freely available in the international preprint server **arXiv** and on my **web page**:

26. M.G. Carlino, **E. Gaburro**.
Second order finite volume scheme for shallow water equations on manifolds. *American Institute of Physics (AIP) Conference Proceedings*, 2024.
[Preprint](#). DOI: [10.1063/5.0210596](https://doi.org/10.1063/5.0210596).
27. M. Bonazzoli, V. Dolean, **E. Gaburro**, F. Rapetti, High order edge finite elements approximations for the time-harmonic Maxwell's equations, 2014 IEEE Conference on Antenna Measurements and Applications (CAMA), p. 1-4, 2014.
[Preprint](#). DOI: [10.1109/CAMA.2014.7003328](https://doi.org/10.1109/CAMA.2014.7003328).

Submitted (2)

28. M. Bonafini, D. Torlo, **E. Gaburro**. Stability analysis of Arbitrary-Lagrangian-Eulerian ADER-DG methods on classical and degenerate spacetime geometries, submitted, 2026.
[Preprint](#): [link](#). DOI: [10.48550/arXiv.2602.09198](https://doi.org/10.48550/arXiv.2602.09198).

29. E. Bernardelli, **E. Gaburro**, M. Dumbser. A structure-preserving semi-implicit finite volume scheme on vertex-staggered unstructured meshes, submitted, 2026.
Preprint: [link](#). DOI: [10.48550/arXiv.2604.21906](#).

In preparation (2+...)

30. M. Benedetti, **E. Gaburro**.
On the use of multidimensional Riemann solvers in Discontinuous Galerkin methods on general polygonal grids via a novel sub-polygonal finite volume limiter, expected submission in Summer 2027.
31. **E. Gaburro**, S. Chiocchetti.
High order Direct Arbitrary-Lagrangian-Eulerian ADER Discontinuous Galerkin schemes on Voronoi grids with deferred mesh optimization, expected submission in Summer 2027.

Talks in international conferences

International conferences: 45. Invited talks: 28. Invited plenary speaker: 7.

- Invited speaker Workshop in Shenzhen, October 2026, Shenzhen, China.
- Invited talk Decast 2026 (international conference in honour of E.F. Toro's 80th birthday), September 2026, Cambridge, UK.
- MultiMat 2026, September 2026, Biarritz, France.
- Invited talk CMAM 2026, July 2026, Vienna, Austria.
- Invited plenary speaker CEDYA 2026, July 2026, Valencia, Spain.
- HONOM 2026, April 2026, Trento, Italy.
- Invited talk Hyperbolic Problems: A Comprehensive Approach, March 2026, Würzburg, Germany.
- IMR Berlin, March 2026, Berlin, Germany.
- Invited talk ETNA Workshop 2025, November 2025, Catania, Italy.
- Invited talk USNCCM18, July 2025, Chicago, USA.
- Invited talk MOST 2025, July 2025, Treis-Karden, Germany.
- Invited talk ICOSAHOM 2025, July 2025, Montreal, Canada.
- Invited plenary speaker NumHyp 2025, June 2025, Germany.
- Invited plenary speaker NoLineal 2025, June 2025, Santiago de Compostela, Spain.
- Invited talk Coupled Problems 2025, May 2025, Villasimius (Sardinia), Italy.
- Invited plenary speaker Efficient high-order time discretization methods for PDEs, May 2025, Capri, Italy.
- Invited talk CFC 2025 (23rd IACM Computational Fluids Conference), March 2025, Santiago, Chile.
- HONOM 2024, September 2024, Chania, Crete, Greece.
- MultiMat 2024, August 2024, Colorado, USA.
- European Congress on Mathematics ECM 2024, July 2024, Seville, Spain.
- Invited plenary speaker (prize) HYP 2024, July 2024, Shanghai, China.
- CEDYA 2024, June 2024, Bilbao, Spain.
- Invited talk ENUMATH 2023, September 2023, Lisbon, Portugal.
- Invited talk ICIAM 2023, August 2023, Tokyo, Japan.

- NumHyp 2023, June 2023, Bordeaux, France.
- CFC 2023, April 2023, Cannes, France.
- SIAM CSE 2023, February 2023, Amsterdam, Netherlands.
- *Invited talk* Essentially hyperbolic problems (a conference in honour of R. Abgrall), October 2022, Switzerland.
- Hirshegg International Workshop 2021, September 2022, Hirshegg, Austria.
- MultiMat 2022, August 2022, Zurich, Switzerland.
- HYP 2022, June 2022, Malaga, Spain.
- SHARK-FV 2022, May 2022, Porto, Portugal.
- *Invited speaker* Oberwolfach, April 2022, Oberwolfach, Germany.
- CIRM International Workshop 2021, March 2022, Marseille, France.
- *Invited speaker* NumAsp 2021, December 2021, Verona, Italy.
- *Invited talk* NUMHYP 2021, July 2021, Trento, Italy.
- *Invited talk* SMAI 2021, June 2021, La Grande Motte, France.
- *Invited speaker* Oberwolfach Workshop, September 2020, Oberwolfach, Germany.
- *Invited talk* WCCM-ECCOMAS 2020, July 2020, Paris, France.
- *Invited speaker* CEA-SMAI/GAMNI 2020, February 2020, Paris, France.
- *Invited talk* AIMETA 2019, September 2019, Rome, Italy.
- MULTIMAT 2019, September 2019, Trento, Italy.
- *Invited speaker (prize)* ECCOMAS YIC 2019, September 2019, Krakow, Poland.
- *2 Invited talks* ICIAM 2019, July 2019, Valencia, Spain.
- ASTRONUM 2019, July 2019, Paris, France.
- NUMHYP 2019, June 2019, Malaga, Spain.
- *Invited talk* SIAM CSE 2019, February 2019, Spokane, Washington, USA.
- *Invited talk* ASTRONUM 2018, June 2018, Panama City Beach, FL, USA.
- MULTIMAT 2017, September 2017, Santa Fe, NM, USA.
- CoCoNuT Meeting 2016, December 2016, Valencia, Spain.
- ECCOMAS Congress 2016, June 2016, Crete, Greece.

Selected seminars and workshops

Total seminars: 27. Total workshops: 7.

- Séminaires du laboratoire, Université de Perpignan, May 2024, Perpignan, France.
- Seminario di Dipartimento, SISSA Trieste, January 2024, Italy.
- Laboratory seminar, University of Stuttgart, November 2023, Germany.
- Séminaires du laboratoire, École Polytechnique, November 2023, Paris-Saclay, France.
- Seminario di Dipartimento, Politecnico di Milano, Luglio 2023, Italia (invited, in presence).
- Séminaires du laboratoire, CEA Bruyeres Le Chatel, November 2022, France (invited, in presence).
- Séminaires du laboratoire, LJLL Sorbonne Université, November 2022, France (invited, in presence).
- Séminaires du laboratoire, Université de Rennes, March 2022, France (invited, in presence).
- Séminaires du laboratoire IMB, Université de Bordeaux, Juin 2021, France (invited).

- Oberseminar Mathematische Strömungsmechanik, January 2020, Wuerzburg, Germany (invited).
- SPPEXA Final Symposium 2019, EXAMAG talk, October 2019, Dresden, Germany (invited).
- Seminar of the University of Technology, May 2019, Compiègne, France (invited).
- Oberseminar Mathematische Strömungsmechanik, January 2019, Wuerzburg, Germany (invited).
- Séminaires du laboratoire IMB, Université de Bordeaux, November 2018, France (invited).
- Séminaires du lab. LJAD, Université de Nice Sophia Antipolis, November 2018, France (invited).
- Heidelberg Institutes for theoretical studies, April 2018, Germany (invited).
- ‘Donna scienza e lavoro’, Women, Science and Work, January 2018, Mantova, Italy (invited).
- Mid term meeting of the ModCompSchock project, October 2017, Zurich, Switzerland.
- University of Málaga, November 2017, Spain (invited).
- Séminaires du laboratoire LJLL, February 2017, Paris, France (invited).
- La mécanique des fluides numériques, CEA-SMAI/GAMNI, February 2018, Paris, France (poster).
- Workshop: an overview on free surface flows, November 2017, Paris, France (poster).
