

Mara Migliavacca: Associated Professor in Prehistory and Protohistory, University of Verona. She co-directed the archeological fieldwork at Campetto (Recoaro, VI), and directed the archaeological research in the Agno-Leogra ridge (VI); the excavations of the Neolithic settlement of Uomo della Roccia (Cornedo, VI); the archaeological Project “Behind the border in the Veneto Prealpine highlands”; and the project “People Woods Passes” at Fraselle (Selva di Progno, VR; Crespadoro, VI) together with the Regional Park of Lessini. IN THE a.a. 2024/25 AND 2025/26 she is director of the fieldwork at the Bronze age settlement of Monte Palazzo (Malo, VI); the Iron age settlement of Terranegra (Legnago, VR); the Bronze age smelting site of Val dei Lombardi (Rovereto, TN).

Research fellowships: she was awarded two CNR_NATO fellowship for cultural heritage at Queen Mary & Westfield College (London); the ACE fellowship at the Institute of Archaeology (London); the European Community Training and Mobility of Researchers Grant at the Instituto Politecnico de Tomar (Portugal). External referee for the peer-review journal “Journal of Archaeological Science”; of the journal “West&East”; of the journal “Gortania”. She is a member of the Scientific Committee of the journals: Alpine Prehistory; Archeologia Veneta; Sentieri Culturali.

She took part in international seminar and conferences as well as in international excavation projects (such as at Neuchatel, CH; Phaistos, Crete; in the Lancashire, GB; the AMPBV project, VR-RO; the Cicolano mountains, RI).
