RESEARCH

Author or co-Author of approximately 200 full length papers

Total H Index (Scopus) 61

Citation (Scopus) 30.099

More than 100 invited lectures and seminars at International and National Congresses

He co-authored MANUALE DI GERONTOLOGIA E GERIATRIA – edz PICCIN 2011.

FELLOWSHIPS

1994-Visiting Researcher Gerontology Research Center, NIA, NIH, Baltimore USA

1999- Visiting scientist "Epidemiology branch NIA, NIH, Bethesda USA"

MAIN TOPICS OF RESEARCH

Prof Mauro Zamboni has contributed to the field of Obesity, Adipose Tissue and Aging

Prof Mauro Zamboni has contributed to the Identification and Definition of Phenotypes of Body Composition, in particular Sarcopenia and Sarcopenic Obesity

MEMBERSHIPS

past President Italian Society on Geriatric and Gerontology Veneto Trentino Alto Adige section

past President Italian Society of Obesity Veneto Trentino Alto Adige section

2018-present vice President Accademia di Geriatria

MAIN RECENT INTERNATIONAL SCIENTIFIC COLLABORATIONS

Prof. Tamara Harris, NIA, NIH, Bethesda, USA

Prof. Athanase Benetos , University of Nancy, France

Prof Chakravarthi Rajkumar, University of Brighton, UK

Prof Saverio Cinti, University of Ancona, Italy

Prof Bret H. Goodpaster, University of Pittsburgh, Pennsylvania, USA

Prof James L. Kirkland Mayo Clinic, Rochester, Minn., USA

Prof Y Boirie , Clermont Ferrand, France

NATIONAL AND INTERNATIONAL GRANTS (AS PRINCIPAL INVESTIGATOR)

1996-1999 Principal Investigator for a regional research project (Regione Veneto prot. n° 1412) titled: "Effect of body composition changes and adipose tissue distribution on disability risk in the elderly"

2006-2007 Grant NIH-NIA for a scientific collaboration with Dr Tamara Harris for a research project at the University of Verona about Sarcopenia pathogenesis and its interrelationships with muscle lipid infiltration

2017-19 Principal Investigator Cariverona Foundation "Therapeutic –rehabilitation programs- social-health care area and territorial welfare" project title "Hospital-Domicile transition in the elderly: cost-effectiveness analysis of an innovative model"
