

Flavio Fenzi was born in Verona in 1952. He obtained his Medical Degree in 1977 at the University of Padova. In 1981 he obtained his Board in Neurology and in 1988 in Neuropathology at the University of Verona. Since 1985 he is Research Professor at the Institute of Neurology ( at present Section of Neuropathology, Department of Neurological, Neuropsychological, Morphological and Movement Sciences), University of Verona. He has been always interested in clinical and experimental Neuropathology and he published scientific articles on international journals on this topic.

His current major field of interest is the neurobiology of head pain ( immunohistochemical expression of estrogen receptors in human brainstem nuclei regulating nociception).

Fenzi F., Rossi F., Rava M., Cavallaro T., Ferrari S., Rizzuto N.: Endothelial adhesion molecule expression is unaltered in the peripheral nerve from patients with aids and distal sensory polyneuropathy.

J. Neuroimmunol. 178: 111-116, 2006
