

RATIONAL

In recent times, the treatment of urological neoplasms has undergone an important evolution due to already existing treatments being shaped into lines of therapy for increasingly precocious stages of disease and the offer of new surgical and radiotherapy treatments and drugs, as well as new combinations of different treatments. The meeting provides insight into integrated and multidisciplinary therapeutic strategies, related to urological neoplasms (prostate carcinoma, kidney carcinoma, urothelial carcinoma, penile carcinoma, testicular neoplasms), with respect to the development of therapeutic knowledge and the integration of new therapies that are becoming available. The congress aims to translate both the guidelines and clinical trials results into daily practice, through expert to expert discussion and sharing.

CME CREDITS

Certificate awarding 10,5 CME credits will be emailed within 90 days after the end of the congress. the following medical sciences have been accredited for this congress: Oncology, Urology, Radiotherapy, Radiology, Nurse

EDUCATIONAL GOALS

APRIL 20th		APRIL 21st	
10.15	Introduction to congress work		
	SESSION 1: Localized prostate cancer Moderators: G. Carrieri, A. Magli, A. Minervini		
10.30	Robotic radical prostatectomy: videosurgery F. Dal Moro		
10.45	Modern radiotherapy techniques C. Paronetto		
11.00	Active surveillance and indication to genetic tests M. Ferro		
11.15	Discussion		
	SESSION 2: Locally advanced and high risk prostate cancer Moderators: S. Arcangeli, M. Nicodemo, B. Rocco		
11.30	Robotic radical prostatectomy and lymphadenectomy: videosurgery R. Schiavina		
11.45	Integration of androgen deprivation therapy with radical radiotherapy F. Matrone		
12.00	Adjuvant and salvage radiotherapy B. El Khouzai		
12.15	Discussion		
12.30	Lunch Break		
	SESSION 3: Oligometastatic prostate cancer Moderators: F. Alongi, M. Gregianin, V. Mirone		
13.30	Targeted lymphadenectomy: videosurgery H. Van der Poel		
13.45	Next Generation Imaging (NGI): changing landscape of prostate L. Evangelista		
14.00	The role of Stereotactic Radiotherapy G. Francolini		
14.10	Oligometastatic, oligoprogressive, nmCR prostate cancer: the medical oncologist point of view E. Verzoni		
14.30	Discussion		
	SESSION 4: Metastatic prostate cancer Moderators: M. Amenta, U. Basso, V. Ficarra		
14.45	New treatment options for mCSPC: doublet, triplet and integration M. Maruzzo		
15.00	Genetic tests in mCSPS and mCRPC: clinical implications R. Iacovelli		
15.15	Advanced mCRPC: how to choose treatments O. Caffo		
15.30	Radiometabolic therapy in prostate cancer S. Severi		
15.45	Discussion		
16.00	Coffee break		
	SESSION 5: Penile cancer Moderators: A. Amodeo, A. Bruni, A. Favaretto, C. Trombetta		
16.15	Conservative local treatment of penile carcinoma M. Catanzaro		
16.30	Penile surgery and reconstruction (videosurgery) G. Garaffa		
16.45	The role of radiotherapy A. Bossi		
17.00	Medical treatments options for a rare cancer D. Bimbatti		
17.15	Discussion		
	SESSION 6: Testicular cancer Moderators: G. Musi, G. Simone, F. Zustovich		
17.30	Retroperitoneal lymphadenectomy: videosurgery N. Nicolai		
17.45	Biomarkers and genetic implication for testicular cancer P. Rescigno		
18.00	HDCT and ASCT: when, how, which results F. Pierantoni		
18.15-18.30	Discussion		
	SESSION 7: High risk non-muscle invasive bladder cancer Moderators: M. Carini, C. Maccagnano, V. Varca		
8.30	Intravesical agents L. Di Gianfrancesco		
8.45	Systemic therapy for localized NMIBC: what is new? A. Dalla Volta		
9.00	Histological and molecular characteristics for risk stratification M. Brunelli		
9.15	Robotic radical cystectomy and neobladder: videosurgery P. Wiklund		
9.30	Discussion		
	SESSION 8: Localized muscle invasive bladder cancer Moderators: W. Artibani, M. Krengli, S. Lonardi		
9.45	The role of MRI and conventional imaging V. Panebianco		
10.00	Robotic radical cystectomy and ileal conduit: videosurgery A. Porreca		
10.15	The role of neoadjuvant treatment for MIBC P. Giannatempo		
10.30	Adjuvant treatment in the evolving scenario: which role today? V. Mollica		
10.45	Bladder sparing protocols M. Sepulcri		
11.00	Is there a role for cystectomy in oligomet bladder cancer? G. M. Busetto		
11.15	Discussion		
11.30	Open coffee station		
	SESSION 9: Metastatic bladder cancer Moderators: C. Modonesi, G. Novara, S. Voce		
11.30	The role of Immunotherapy in the maintenance vs second line therapy R. De Vivo		
11.45	ADC and targeted therapies: the news coming E. Fantinel		
12.00	Discussion		
12.30	Lunch Break		
	SESSION 10: Localized and localized advanced renal cell cancer Moderators: D. Bernardi, R. Bortolus, E. Mearini		
13.30	Nephron sparing surgery: videosurgery F. Porpiglia		
13.45	Focal treatments A. Celia		
14.00	Stereotactic Radiotherapy for localized RCC C. Franzese		
14.15	Genetics of renal carcinoma: surveillance, risk adapted management S. Zovato		
14.30	Radical nephrectomy: videosurgery L. Schips		
14.45	Lymphadenectomy A. Crestani		
15.00	Perioperative systemic treatment for RCC: a step forward S. Bracarda		
15.15	Discussion		
	SESSION 11: Metastatic renal cell cancer Moderators: P. Ditonno, F. Fiorica, V. Zagonel		
15.30	How to choose the first line systemic treatment in 2023 S. Buti		
15.45	Subsequent line of treatment vs treatment modulation C. Ciccarese		
16.00	The role of NGI in renal cancer L. Urso		
16.15	The role of Stereotactic Radiotherapy L. Triggiani		
16.30	The role of cytoreductive nephrectomy A. Antonelli		
16.15	Discussion		
17.00-17.30	Final Remarks
