Participation in the meeting organized by the Italian Society of Psycho-Oncology at the University of Trento during the lessons

Palazzo dell'Educazione, Department of Psychology and Cognitive Sciences, Corso Bettini, 84 - 38068 Rovereto (TN)

PROJECTS

08/2020 – 04/2021

"Translating the Poetics of Aristotle" I participated as a tutor in the project "Translating the Poetics of Aristotle" in which I had the opportunity to follow the employment placement of young adults with ASD, as established by Law 68/99 for protected categories, within my internship. This project involves both the Department of Psychology and Cognitive Sciences and the Department of Literature of the University of Trento, in collaboration with the Trento Employment Agency. I was responsible for following the kids as they worked on this project, providing them with support if necessary. In this work, which requires digitization skills (through a specific program) of paper texts in different languages, concerning Aristotle's poetics, it was possible to observe how children with ASD have very useful skills suitable for carry out this task.

12/11/2013 – 03/06/2014

"Nice to meet you" This social project, promoted by the Hemopathic Oncological Child Association of Verona (ABEO), is aimed at sharing the experiences and daily lives of children and young people affected by childhood tumors with children of the same age from various high schools in the Verona area, with participation to various music therapy, photography and theater activities.

ORGANISATIONAL SKILLS

Organisational skills

- Good organizational skills acquired in the organization of a sports tournament for charity and also thanks to team work during internship and professional experiences
- Good predisposition for group, team and cooperative work
- High spirit of adaptation to new situations gained thanks to numerous experiences abroad to improve my English language skills

COMMUNICATION AND INTERPERSONAL SKILLS

Communication and interpersonal skills

- Good communication skills acquired during my internship, thesis research and professional experiences.
- Good ability to exchange ideas gained during the university training period thanks to the various group work carried out and thanks to team work.
- Good interpersonal skills acquired both during my training experience in the university setting and in professional practice and on a personal level with charity activities and as a volunteer for various associations.
- Good communication skills and relational skills, including in a foreign language, gained during the various study holidays taken abroad with the family.

PROFESSIONAL SKILLS

Competenze professionali

- Good ability in administering tests for Neurodevelopmental Disorders and Specific Learning Disorders, acquired during the various internship experiences, in particular during the Second Level Master.
