- I coordinate the Private and Accredited Educational Services of the Municipality of Lucca, with the authorization renewal of these services which took place by September 2020; in addition to the coordination of an indirectly managed Public Nursery.

- since November 2020 the Director of the Education Office has assigned me particular responsibilities to be carried out in the CRED sector until December 2022.

In the years in which I have held the role of **Municipal Nursery Educator and Educator** at the **Arca cooperative**, I have developed the following skills:

- **observation, participation and relational mediation**, as well as **promotion of**

educational paths, during the collective meetings of the educational staff in the various early childhood educational services;

- participation in a team of experts to evaluate the effects of a **Medicus 2000 training project** for the health personnel of the "A. Meyer" Children's Hospital (year 2000/2001);
- during the internship at the **School of Clinical Psychology of Livorno**, the research objective was to deepen the relational dimension, in its structure and dynamics, through observation and participation in a "T-Group", to better learn the skills necessary for the role of educator and supervisor within the work groups.

- participation in an applied research, lasting 4 months in the A. Y. 1990/91, at the Chair of **Developmental Psychology**, Prof. Filippo Boschi, of the Faculty of Education of Florence, relating to the collection of protocols and implementation of data concerning a study on lexical skills

#### Relational and communication skills

Possessing **adequate relational and communicative competence**, understood as the ability to weave and lead the relationship(s) in "educational" terms linked to the growth of the child within the relationship between adult and child and group of children; means allowing the educator to grasp through observation, recognition and evaluation, the various levels of development of the child, as well as his learning needs.

**From the point of view of the Pedagogical Coordination**, the complexity of these relationships develops and integrates with the support and support capacities, towards the varied pedagogical, managerial, operational and training needs of the working group of educational and auxiliary staff of early childhood educational services, throughout the educational year, with a view to medium and long-term temporal continuity

#### Skills acquired

- since 2019 as pedagogical coordinator at the Municipality of Lucca and of the Zonal Conference of Education of the Plain of Lucca
- during the years of internship and professional work in the highly specialized pediatric wards and in the playroom of the "A. Meyer" Children's Hospital in Florence,
- in her decades of experience as an educator in early childhood educational services,
- as a Tutor alongside a Pedagogical Coordinator in the Early Childhood Educational Services coordinated by her in the Municipality of Florence, as well as within the Group of Coordinators at the Pedagogical Coordination Unit of the Municipality of Florence supervised by Prof. E. Catarsi for a total of 170 hours of Internship

#### Skills
