## LANGUAGES:

Italian - Native  
Spanish - C2  
English - C2  
German - B1

## PROFILE

My research interests revolve around Cognitive and Psycholinguistics, focusing on Second Language Acquisition (SLA) and Morphological Awareness. Specifically, my PhD project investigates the benefits of Explicit Morphological Instruction on L2 Vocabulary Acquisition using the masked priming paradigm and lexical decision tasks. I aim to develop innovative teaching strategies to facilitate second language vocabulary learning by bridging theoretical insights with practical applications in language pedagogy.
