Principal investigator/referente scientifico for the joint research project *AD-AVQ: a new dataset about the income-age trajectories of italians*, involving the Italian Ministry of Economy and Finance, Department of the Treasure-Directorate I, the University of Verona, Department of Economics, and Sapienza University of Rome, Department of Economics and Law. Duration: 2025-2027. The project aims at producing innovative avenues of research on the measurement of well-being and health in Italy, through the introduction of an innovative dataset that matches (deterministically) Multiscopo-AVQ data (provider: Istat) with longitudinal, inter-generational and local admin data (providers: INPS, INAIL, MEF, municipal budgets).
Outreach: improve existing estimates of Equitable and Sustainable Well-Being Indicators (BES-Benessere Equo e Sostenibile) routinely produced by the Ministry and used as policy criteria in the Italian Budget Law (since Law 196-2009). The groups will partner on developing research reports and present work to relevant stakeholders and commissions.

Member of the Department of Excellence board, established within the framework of the *Dipartimento di Eccellenza* call 2023-2027, awarded to the Department of Economics, University of Verona from MUR (Budget 5.909.000 Euro). I co-manage (with Paola Bertoli) the data collection on *Well-being and health* in collaboration with INAPP (National Institute of Public Policy Evaluation) and based on INAPP-Plus surveys 2024 and 2026.

Outreach: Joint research work with INAPP staff on improving measurement and understanding of health and well-being inequalities in Italy, on access to health and its costs and intergenerational aspects. This will materialize in policy reports and round tables with Italian policy-makers.
