Orientation

Each semester a compulsory program is offered on the Friday before the undergraduate semester begins. This activity is aimed at helping students learn how to navigate the University, learn about social and academic resources/programs, receive academic advice, meet new people, begin to make connections, and get questions about UTDT and the city answered.

Learning styles and expectations

At UTDT students are expected to take responsibility for their own learning. Class attendance is required, therefore, schedule overlap is not allowed. Students will be encouraged to read widely, analyze what has been read, and will be expected to understand the material covered in lectures, not just memorize it. Teaching styles vary but, generally speaking, independent thought and discussion are encouraged and class participation is key.
