## ABOUT US :

This multidisciplinary university, with its 20,000 students, brings talent and excellence to its five campuses spread across Saint-Étienne and Roanne, enriching both the academic community and the local area. The university supplies young talent and excellence to its 5 campuses and the local area.

Studying at Université Jean Monnet means being part of the European university alliance Transform4Europe (T4EU), which brings together ten European higher education institutions and one associate partner in Ukraine. T4EU aims to transform higher education through collaboration. By combining expertise across borders and disciplines, we are building a dynamic, interconnected learning community ready to tackle tomorrow's major societal, environmental, and digital challenges.

We are proud to work closely with the École Nationale Supérieure d'Architecture de Saint-Étienne (ENSASE), a prestigious institution that is part of the university ecosystem. However, please note that mobility procedures for ENSASE are managed independently by their dedicated administration. For any inquiries related to mobility, we encourage you to reach out directly to their team.
