Oggetto: Re: I: INVITE project (GA 754345) - request to name a phd fellowship

Dear Dr Monaco,

I apology for the late reply but we were checking with the relevant services whether a specific procedure was needed for this type of requests. Of course, we consider your proposal to name one of the ESRs doctoral fellowships of the INVITE project (GA. Nr. 754345) to the memory of Ms. Lara Lupinc, understandable and very appropriate. Therefore, we have no problems with your request and no additional steps are needed from our side (except the need of acknowledging the EU funds for the INVITE project).

Best regards,

Alessandra Luchetti
